List of Industry Visits, Community Postings in the Year 2021-22

Milma Visit-Detailed Programme Report

Milma Dairy, Kozhikode, Kunnamangalam

Students are taken to Milma dairy, Peringolam, Kozhikode (Malabar regional Co-operative milk producers union limited) every year as part of field visit Community medicine. Milma dairy is a three tiered organization, has more than 1000 village level Dairy Cooperative societies in the sixth northern districts of kerala state in south India. The dairy plant visit provides students with the practical exposure where they could experience the operations of the milk industry- product manufacturing, processing and handling. Students learn about milk processing, pasteurization and various laboratory tests used for the quality control.

Water Treatment Plant Visit--Detailed Programme Report

Water Treatment Plant Koolimadu, Kozhikode

The students are taken to water treatment plant of Koolimadu under Kerala water authority every year as a part of field visit community medicine. Water treatment plant visit helps the students to learn and observe the steps in large scale water purification. They also get to know about the laboratory tests used for checking the water quality before, during and after the process of purification. They also learn about the water disinfection procedure with chlorine gas in the water treatment plant.

Primary health centre and subcentre visit--Detailed programme Report

Primary health centre Thiruvambadi

Primary health centre (PHC) is the cornerstone of health services and the first port of call to a qualified doctor of the public sector for the sick and those who directly report or referred from subcentres for curative, preventive and promotive health care. PHCs provide health care that is quality oriented and sensitive to the needs of the community. During the PHC visit students learn about services provided by a PHC and also about its working and staffing pattern. Also they get the opportunity to observe the immunization session, cold chain and ILR working, and the essential drugs in the PHC etc. By this visit the students understand that a PHC is a basic health unit to provide health services close to the people, and it is integrated with curative and preventive health care, and emphasis is given to preventive and promotive aspects of health care.

Subcentre visit helps the students to understand about the health centre which is the most peripheral and first contact point between the primary health care system and the community, and it is largely preventive and promotive, and also provides a basic level of curative care. Also it helps them to familiarize the services provided by a sub centre and its main functions. The students get the opportunity to interact with the junior public health nurse (JPHN) and the ASHA(accredited social health activist) who details about the wide spectrum of services provided through the subcentres.

Students are sensitized with the Universal Immunization Programme (UIP). For understanding about immunization and cold chain students are taken to primary health centers (PHC). During the visit they observe how the vaccines are stored in a PHC, how each vaccine under UIP is administered to the beneficiary. The health worker- JPHN explains about the vaccine storage, ILR, temperature maintenance and various vaccines. They also get the opportunity to observe vaccination techniques and steps to be taken if any adverse reactions occur. By the visit to immunization at PHC they also understands that it is the most cost-effective public health intervention, largely responsible for reduction of vaccine preventable diseases and contributing to decrease in under 5 mortality of children.

Family Adoption Programme -Detailed Programme Report Chathamangalam Panchayath As A Part Of Family Adoption Programme, Kozhikode

Family adoption programme (FAP) provides an experiential learning opportunity to medical students towards community-based health care. It gives them a first-hand experience of the living conditions of the people they encounter as patients in the hospital. The students also understand how various determinants of health influence patients in real life. The National Medical Commission (NMC) has mandated FAP for MBBS students from 2022. During the FAP the student establishes rapport with the family allotted to them, understand their health and related factors, and help improve the healthcare of the family, and by extension, the community. Thus it is expected to help in achieving Universal Health Coverage. This also helps the students to understand how community leaders, social organizations and village health committees work together for health. This community–academic partnership offers a unique opportunity to learn the social and cultural determinants of health.

Palliative Care-Detailed Programme Report Pain And Palliative Care Clinic

Mukkam, Kozhikode

The visit to Palliative Care in Kozhikode is done with the objective to make the students to understand the problems of terminally ill patients and also it is a range of services delivered by a range of professionals that all have equally important roles to play – including physicians, nursing, support workers, paramedics, pharmacists, physiotherapists and volunteers — in support of the patient and their family. With the visit the students understand that the patients in palliative care receive medical care for their symptoms, or palliative care, along with treatment intended to cure their serious illness. Students are introduced to the care to be given, like position change to prevent the bed sores, Ryles tube insertion etc. Also they are briefed about the funding and administration of the center

Oldage Home-Detailed Programme Report Santhwanam Old Age Home, Chathamangalam, Kozhikode

Old age home caters the elderly who are in the later stages of their life and have no one to look after them. Old age home visit helps students to understand the geriatric problems including physical, social, psychological problems and how to address them. Students interact with the inmates of the old age home thereby which they get to know the profile of the inmates so that they understand problems faced by each of the inmates. The students get the opportunity to speak with the administrator and understand the functioning of the old age home. The students also learn about the various pension schemes available for the old age people.

List of Industry Visits, Community Postings in the Year 2019-20

Water Treatment Plant Visit--Detailed Programme Report Water Treatment Plant Koolimadu, Kozhikode

The students are taken to water treatment plant of Koolimadu under Kerala water authority every year as a part of field visit community medicine. Water treatment plant visit helps the students to learn and observe the steps in large scale water purification. They also get to know about the laboratory tests used for checking the water quality before, during and after the process of purification. They also learn about the water disinfection procedure with chlorine gas in the water treatment plant.

Water treatment plant visit 2019-2020

List of Industry Visits, Community Postings in the Year 2018-19

Milma Visit-Detailed Programme Report

Milma Dairy, Kozhikode, Kunnamangalam

Students are taken to Milma dairy, Peringolam, Kozhikode (Malabar regional Co-operative milk producers union limited) every year as part of field visit Community medicine. Milma dairy is a three tiered organization, has more than 1000 village level Dairy Cooperative societies in the sixth northern districts of kerala state in south India. The dairy plant visit provides students with the practical exposure where they could experience the operations of the milk industry- product manufacturing, processing and handling. Students learn about milk processing, pasteurization and various laboratory tests used for the quality control.

Milma visit 2018-2019

Water treatment plant visit--Detailed programme report

Water treatment plant Koolimadu, Kozhikode

The students are taken to water treatment plant of Koolimadu under Kerala water authority every year as a part of field visit community medicine. Water treatment plant visit helps the students to learn and observe the steps in large scale water purification. They also get to know about the laboratory tests used for checking the water quality before, during and after the process of purification. They also learn about the water disinfection procedure with chlorine gas in the water treatment plant.

Water treatment plant visit 2018-2019

Palliative Care-Detailed Programme Report

Pain And Palliative Care Clinic Mukkam, Kozhikode

The visit to Palliative Care in Kozhikode is done with the objective to make the students to understand the problems of terminally ill patients and also it is a range of services delivered by a range of professionals that all have equally important roles to play – including physicians, nursing, support workers, paramedics, pharmacists, physiotherapists and volunteers — in support of the patient and their family. With the visit the students understand that the patients in palliative care receive medical care for their symptoms, or palliative care, along with treatment intended to cure their serious illness. Students are introduced to the care to be given, like position change to prevent the bed sores, Ryles tube insertion etc. Also they are briefed about the funding and administration of the center

Pain and palliative care clinic visit- 2018-2019

Oldage Home-Detailed Programme Report
Santhwanam Old Age Home, Chathamangalam, Kozhikode

Old age home caters the elderly who are in the later stages of their life and have no one to look after them. Old age home visit helps students to understand the geriatric problems including physical, social, psychological problems and how to address them. Students interact with the inmates of the old age home thereby which they get to know the profile of the inmates so that they understand problems faced by each of the inmates. The students get the opportunity to speak with the administrator and understand the functioning of the old age home. The students also learn about the various pension schemes available for the old age people.

Old age home visit 2018-2019

List of Industry Visits, Community Postings in the Year 2017-18

Milma Visit-Detailed Programme Report

Milma Dairy, Kozhikode, Kunnamangalam

Students are taken to Milma dairy, Peringolam, Kozhikode (Malabar regional Co-operative milk producers union limited) every year as part of field visit Community medicine. Milma dairy is a three tiered organization, has more than 1000 village level Dairy Cooperative societies in the sixth northern districts of kerala state in south India. The dairy plant visit provides students with the practical exposure where they could experience the operations of the milk industry- product manufacturing, processing and handling. Students learn about milk processing, pasteurization and various laboratory tests used for the quality control.

Water Treatment Plant Visit--Detailed Programme Report

Water Treatment Plant Koolimadu, Kozhikode, For The Last Five Years

The students are taken to water treatment plant of Koolimadu under Kerala water authority every year as a part of field visit community medicine. Water treatment plant visit helps the students to learn and observe the steps in large scale water purification. They also get to know about the laboratory tests used for checking the water quality before, during and after the process of purification. They also learn about the water disinfection procedure with chlorine gas in the water treatment plant.

Water treatment plant visit 2017-2018

Palliative Care-Detailed Programme Report

Pain And Palliative Care Clinic Mukkam, Kozhikode

The visit to Palliative Care in Kozhikode is done with the objective to make the students to understand the problems of terminally ill patients and also it is a range of services delivered by a range of professionals that all have equally important roles to play – including physicians, nursing, support workers, paramedics, pharmacists, physiotherapists and volunteers — in support of the patient and their family. With the visit the students understand that the patients in palliative care receive medical care for their symptoms, or palliative care, along with treatment intended to cure their serious illness. Students are introduced to the care to be given, like position change to prevent the bed sores, Ryles tube insertion etc. Also they are briefed about the funding and administration of the center

Anganwadivisit-Detailed programme report on total number of collaborative activities with,kayittapoyil and kuttipala Anganwadi,Kozhikode, for the last five years

Anganwadi visit helps the students to learn about the Integrated Child Development Services. During the visit the anganwadi teacher explains them about her duties, beneficiaries under the program, and the services. The students also get the opportunity to observe the growth charts and other records maintained at the anganwadi.We have collaborative activities with kayittapoyil and kuttipala anganwadi for the last five years. Students are visiting every year as a part of field visit community medicine to know about working of anganwadi, growth charts, immunization programmes etc.

Anganwadi Visit 2017-2018

Students participated (2015 MBBS Batch)
